## Web/Graphic Designer

SteveMckinnis.com | May, 1990

Initially this started as I was doing presentations for people on paper and on their computers. My first client was a farmer/agriculturist while at Hastings College. You can see site examples of my work at <https://stevemckinnis.com>. I specialize in custom designed and coded websites and I code in PHP, HTM, HTML, CSS. I meet with individuals or corporate representatives to access and go over an outline for the proposed or existing site finding out what their goals or issues with their future or current site may be and then strategize the best way to promote, improve or repair a site to best represent them or their product on-line.

After initial meeting an electronic quote is sent for approval and upon acceptance an initial half of quote due with balance due upon completion and new sites debut range between one week to one month from the contract signing and deposit. No custom site completion exceeds a thirty day turn around timeline and those sites can range (custom) between \$1,250.00 to \$10,000.00.

I keep clients updated with site sample and drafts which are viewable and navigational on-line as their content is electronically submitted and adjusted with each phase to completion of the site then any and all peripheral social media that is to be set up for the client or branded will be adjusted after the main site is approved which can include: Facebook, Twitter, Tumblr, Google+ (profile, listing), Blogger - Google Product, Flickr and YouTube Channels. If there are any other media needs that training (if required) will be take place after the site has gone live at their company site address (http/https) and then upon debut and approval of the live site an onsite meeting is conducted. All additional training will be set up at this time and any issues or additional needs discussed. • Overall: I've created custom websites for over thirty companies and corrected and cross platform verified hundreds more. I have photographed and laid out entire promotional related materials for companies which can include business cards, logo design, flyers, advertisements (in multiple mediums such as print/TV/DVD and on-line campaigns) for a multitude of companies.

See more site examples at <https://stevemckinnis.com/sites/>.

619.913.3101  
*Steve McKinnis.com*

**Creative Director | Volunteer Position**  
**Lakeside Community Church**  
July, 2003 — January, 2016

**Contact:** Melinda Runcie-Former Pastor of Worship & Outreach at Lakeside for 16 years. [dmruncie@yahoo.com](mailto:dmruncie@yahoo.com). I Created web site [lcchastings.com](http://lcchastings.com), trained staff and set up Twitter, Blog, Google+, YouTube Channel, Instagram

**Web Site Administrator & Marketing Alliance Title**  
March, 2005 — August, 2007

I created an internal web site for Title Reps to access flyers (PRREP.com-no longer active). Orders for materials for Realtors and other marketing related materials could be placed there. I attended weekly meetings with all Title Reps (over sixty five) to present new marketing materials or suggestions to help them meet their goals. I created and edited all Marketing Materials to promote Title Reps. Database management & Daily Report. Client contact and support staff administration.

**Web Administrator & Branding**  
**MINISTRY IN MOTION**  
2018 Special Site For Ministry In Motion

I developed a custom web site for Ministry In Motion as well as a site for their musicals. For 2018 it is Christmas at Mel's Diner. <http://ministryim.com/>

619.913.3101  
**Steve McKinnis.com**

## ACHIEVEMENTS

- i. Award for Excellence from Talk of the Town News for Customer Service in Web Design for San Diego County. Awarded, 2010, 2011, 2012, 2013, 2014, 2015 & 2016, 2017 & 2018.
- ii. Logo Design Winner for: Recreation Design at the University Of Nebraska Lincoln
- iii. Logo Design Winner for Media Ethics at Hastings College
- iv. Logo Design Winner for the Acura Tennis Classic (2007) in San Diego, CA.

## EDUCATION

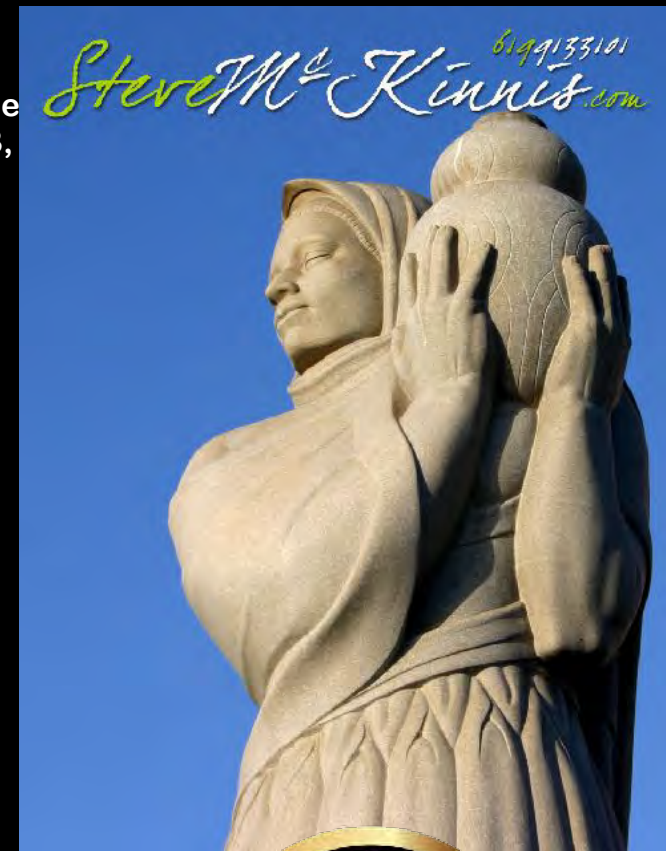

5/1990 | Bachelor of Arts in Communications Hastings College US-Nebraska- Hastings.

I participated in HCTV, e Collegian Newspaper and KFKX AM 640 as a DJ and a Production Manager. I wrote advertisements, produced news segments, ran VTR's, reel-to-reels and edited tapes and ran a grass valley switcher.

## ADDITIONAL INFORMATION

PHP, HTML/HTM, CSS, Illustrator, PageMaker, Photoshop, Corel Draw, MS Word and a host of other PC and Macintosh related programs.
