Web/Graphic Designer

SteveMckinnis.com

May 1990 - Present · 33 yrs

- See the site and examples of my work at <http://www.stevemckinnis.com> and samples of my art/photos & graphics on REDBUBBLE under stevemckinnis.

I have been doing free-lance since I graduated from college. In the last ten years my focus has been on web design/web coding, photography and graphic design. I have received this award since 2010 every year up to 2021. The Award from Talk of the Town is for excellence in Web Site Design and Customer Service in San Diego, CA. I also fix problematic web sites/template sites that have coding errors, a lack of meta tags/SEO requirements and other issues such as dead links, wrongly sized graphics or tables that are not coded correctly and are not cross platform friendly and work on all platforms and I make them cross platform accessible so that they run and operate the same on any platform be it an iPhone, iPad or blackberry, PC or MAC based computer.
